**Re: Consultation Timelines**

---

Dear Minister Wilkinson,

On behalf of the Saskatchewan Chamber of Commerce, the voice of business in Saskatchewan for over 100 years, we appreciate the opportunity to participate in consultations on such topics as carbon capture, utilization, and storage (CCUS) and the development of a border carbon adjustment mechanism. These are important for Canada to get right on our path to net-zero emissions by 2050.

In the spirit of providing meaningful feedback however, we respectfully request that you reconsider the current consultation timeline of 90 days. Our membership is diverse, and it will take additional time to be able to gather their input.

Thank you for your attention in this matter. The Saskatchewan Chamber of Commerce would be pleased to provide further comment at your convenience.

Yours sincerely,
