WELCOME

In the heart of Western Canada, our province boasts some of the most sustainable practices in producing the essentials the world depends on: food, fuel, and fertilizer.

It's time to position Saskatchewan as a compelling investment destination and a hub for global brands seeking to contribute to a sustainable and thriving ecosystem. Join us as we shape the narrative, lead by example, and pave the way towards a brighter, more sustainable future for industries worldwide.

JOIN US IN TELLING SASKATCHEWAN'S STORY.

SPONSORS

Saskatchewan!

The Ministry of Trade and Export Development advances economic growth to generate wealth and opportunity in Saskatchewan. The ministry facilitates a coordinated cross-government approach to attract investment and grow export markets. The ministry fosters and supports a competitive business environment, facilitates trade and strengthens Saskatchewan's international relations. The Ministry of Trade and Export Development advances economic growth to generate wealth and opportunity in Saskatchewan.

The Mosaic Company produces and deliver millions of tonnes of responsibly produced potash and phosphate fertilizers from mine to market - nutrients that are vital to feed crops which feed people everywhere - and serve farmers in 60 countries by increasing crop yields and improving nutrition for people and animals. We pursue our mission to help the world grow the food it needs responsibly and sustainably. We are committed to being good stewards of the environment by reducing our water use and greenhouse gas emissions, good neighbors through strong partnerships with local communities, and by being a more diverse and inclusive company where every person feels valued and appreciated.

BHP

BHP, a global resources company, operates its Canadian headquarters in Saskatoon with approximately 80,000 employees people working across Canada, Australia, Asia, the UK, US and Latin America. BHP produces commodities essential for global decarbonization, economic development and food security including copper, nickel, iron ore, metallurgical coal and potash. The company's \$14 billion investment in the potash project located in Jansen, Saskatchewan, marks the single largest investment in the province's history. Since 2015, BHP has contributed over \$50 million to community organizations and initiatives in Saskatchewan, emphasizing BHP's belief that success is achieved through community partnerships that create lasting mutual benefit.

Red Leaf is a leader in the value-added manufacturing of residual wheat straw into market pulp and bio-energy. The Regina Project addresses a growing market for sustainable paper products while supporting producers and concepts of a circular economy.

While certain elements of the Red Leaf process are unique and innovative, pulp fibre has been made from wheat straw for decades around the globe. The Red Leaf process uses proven equipment and will produce economic quantities of market pulp from wheat straw at scale in North America. Additionally, Red Leaf supplies pellets for bio-based energy with a sustainable, low-carbon feedstock.

CONSTRUCTION

PCL is a group of independent construction companies that operates throughout Canada and has executed projects of every scope and size across Saskatchewan. Our company's 100% employee ownership model fuels a culture of commitment for clients in the heavy industrial, buildings, civil infrastructure and solar markets. We work for you and with you to understand your goals, overcome challenges, and earn your trust. We provide a variety of delivery and commercial terms to fit your project. We push ourselves to consistently deliver beyond the expected and provide an outstanding experience for our clients, trades, subcontractors, suppliers, employees, and the community.

KPMG is a leading provider of audit, tax, and advisory services. Over 150 professionals in Saskatchewan leverage a diverse network of specialists with KPMG member firms around the globe to facilitate industry-leading initiatives with governments, agribusiness, public companies, not-for-profit corporations, and private enterprises. KPMG's Environmental, Social and Governance (ESG) and Digital Transformation portfolios are growing rapidly with projects addressing energy transition, major infrastructure, responsible AI, cybersecurity, and ESG policy and reporting. The team at KPMG is dedicated to serving our clients with excellence, offering innovative solutions that support your business goals while positively impacting our communities and the environment.

Deloitte.

At Deloitte, our purpose is to make an impact that matters. We exist to inspire and help our people, organizations, communities, and our countries to thrive by building a better future. Our work builds consumer and business confidence and underpins a prosperous society where people can find meaning and opportunity. Deloitte provides industry-leading consulting, tax and legal, financial advisory, audit and assurance, and risk advisory services to nearly 90% of the Fortune Global 500® and thousands of private companies. We bring together world-class capabilities, insights, and services to address clients' most complex issues.

Cameco is one of the largest global providers of the uranium fuel needed to energize a clean-air world. Our competitive position is based on our controlling ownership of the world's largest high-grade reserves and low-cost operations, as well as significant investments across the nuclear fuel cycle, including ownership interests in Westinghouse Electric Company and Global Laser Enrichment. Utilities around the world rely on Cameco to provide global nuclear fuel solutions for the generation of safe, reliable, carbon-free nuclear power. Together, we are meeting the ever-increasing demand for clean, baseload electricity while delivering energy solutions to support the world's net-zero goals.
